## 5/8" HOLLOW CHISEL MORTISER

Heavy duty cast-iron head, column and base built for steady vibration free performance.

Head slides on precision machined cast-iron dovetail ways - stroke is controlled by a gas head-cylinder for smooth operation.

Equipped with easy to adjust dual depth stop for complete control of both down stroke depth and upstroke travel.

Large feed handle with extra long, multiposition arm for better leverage and increased feed control.

Includes an adjustable workpiece stop, handwheel controlled clamp and a column mounted hold-down.

Totally enclosed fan cooled (T.E.F.C.) motor with start capacitor for smooth start-up and longer running life.

Dust protected on/off switch.

Includes adapter bushings to accommodate both 5/8" and 3/4" sized chisel shanks.
