Models 60-125R / 60-125L

18" PNEUMATIC CUT OFF SAW

Heavy-duty steel cabinet is built with precision for extra stability and designed for maximum safety.

The machine is designed for extremely fast cutting, up to 45 cuts per minute.

Easy operation, the cutting cycle is controlled by twin buttons or a foot switch (included).

The saw blade runs inside the frame for safe operation.

Quick-adjust head clamp.

Large 4" dust collection port.

Large side access door for quick easy blade changes.

Precision ground and balanced chrome steel alloy arbor.

Powerful 10 HP motor on 3 phase model.

Right cutting and left cutting versions are available.

Blade guard clamp holds the piece securely in place during the cut.
