DRILL PRESS VISES - CENTER SLIDE BAR TYPE

Slotted hold downs along both sides.

Much more accurate and stable than the traditional screw and cross plate.

Tolerance between the axial sleeve and center bar is 0.02".

High tensile cast-iron construction for maximum durability.

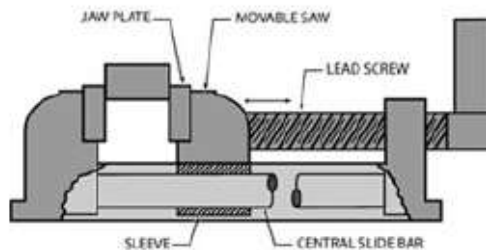

One-piece cast-iron axial sleeve and movable jaws.

Fast action, "Acme" type screw threads.

The center slide bar assures an even 360° contact .
